Australian Premium Solar (India) Pvt. Ltd.

APS is one of the leading manufacturers in India's solar energy industry, making substantial contributions over the past decade. As an NSE-listed company, we have developed, engineered, and manufactured over 700 MW of solar panels, resulting in a significant reduction of thousands of tons of CO2 emissions.

With over 700,000 panel installations and thousands of satisfied customers nationwide, we are committed to ongoing innovation. To meet the growing demand for APS high-efficiency panels, we are expanding our advanced manufacturing facility in Tajpur, Gujarat to over 200 MG.

APS currently operates with a production capacity of 700 MW. With the planned expansion of 500 MW, our total capacity will increase to 1.2 GW by March 2025.

Chemitech Constructions Private Limited

Chemi Tech Group had its humble beginnings in 1988 in New Delhi. We began as a chemical trading and government contracting company with a focus on water-based infrastructure projects. Majority of water pumping stations, sewage and effluent treatment plants in North India have been constructed by us, including civil, electrical and mechanical works in the same. In chemical vertical, we have been dealers of Reliance Industries Limited for around 3 decades now.

We diversified and started with the solar vertical in 2015 and started out as an EPC company and gradually moved to trading and manufacturing of solar components. We have executed more than 100 MW rooftop and ground based projects across the country. As a distributor, we are one of the biggest and oldest channel partners of Adani Solar and JA Solar and also deal in MC4 connectors, DC and AC cables and complete solar BoS (Balance of System) material. We have our own manufacturing of FRP Walkways and AC and DC Junction/Distribution Boxes (ACDB/DCDB) from our state-of-the-art manufacturing facility in Hyderabad.

We also ventured into Electric Vehicle Charging Infrastructure vertical in 2017 and installed India's first DC Fast charger at NITI Aayog premises in New Delhi. Currently, we are channel partners/vendors of Tritium (Brisbane, Australia), Tata AutoComp, Porsche, Hyundai, Maruti Suzuki and many other EVSE's and automotive manufacturers for their EV charging needs. Over the past 5 years, we have installed and commissioned more than 2500 chargers across the country.

CRC India Manufacturing and Distributors Private Limited

Industrial Aerosols and Lubricants All around the world, there's work that needs to get done, and people are counting on you to do it. Whether you're part of a service crew serving a city's electrical grid, a machine operator preparing the ground for a new building, a mechanic doing a routine brake job or a parent tuning up the family bikes for a big Sunday ride, you keep everyone moving forward in a world that never stops—and you can count on CRC to help you on every job and every project.

For over 60 years, we've been rolling up our sleeves to create specialty products and solutions that help you get the important work done. We go on-site with the people doing the work —watching, listening, and getting our hands dirty to understand exactly what you need. Then we test the work, getting our products into the hands of professionals and DIYers to ensure it makes the work easier, more efficient, and all-around better. That's why we're confident our products will always perform, and with CRC by your side, we know you'll be ready to take on any project that comes your way.

CRC is ISO 9001 certified and adheres to the strictest guidelines for quality in all facets of research, development and production.
